

Licensed Registered Dietitian Network

Some information on our website is secure; always [log in to ProviderAccess](#).

The Licensed Registered Dietitian Network requires credentialing. Even if you are already enrolled as a Blue Advantage Network provider and receiving payment, you must be re-enrolled and credentialed by Blue Cross and Blue Shield of Alabama to participate in this new network. For more information, view our [webcast](#). If you have questions about enrolling, contact Provider Networks at 1-866-904-4130.

Dietitians who enroll in this network will be able to bill Blue Cross and Blue Shield of Alabama directly for certain services provided to patients ages 19 and older. These services will not need to be billed under a supervising physician.

Refer to the [Professional Claims Submission Help Guide](#) and the [eClaims Quick Reference Guide for Primary Claims](#) for information about filing claims electronically on *ProviderAccess*.
